24 Hour Repair Turnaround	<b>X</b> Since 1971		

# **FIXED FLOW FIREGROUND TACTICS**

### SMOOTH BORE ATTACK

Engineered with a smooth, tapered waterway, TFT's smooth bore tips provide the stream quality, reach, and penetration that you have come to expect from a traditional smooth bore.

3 Valve Options					
F140F	Tab Handle Available	J140F			
Stacked Tip Options (Dozens to choose from)					
FST.875	FS-3STACK	FSNYSTACK			
Section 1					

### **TFT Vortex Option**

With just a simple twist, the VORTEX moves from a hard hitting straight stream to a uniformly dispersed pattern without gating the valve and reducing the fire flow. Available in a tip only, with valve or with valve and grip. A complete range of smooth bore tips are offered separately.

## **FIXED GPM METRO SERIES**

The METRO series of fixed gallonage nozzles is available in 1", 1.5" and 2.5" versions. Available in tip-only/ball shut-off configuration for breakapart operations or a one piece with a ball shut-off, and optional colored pistol grips and handle cover.

One Piece Option	Break Apart Option		
1.5" ME1-V	F140F	Tab Handle Available	ME1-TOS
	0/15		
2.5" ME2-2V	J140F	Tab Handle Available	ME2-TO
	COVIETO DE
