BLITZFIRE

OSCILLATING MONITOR

Oscillating front end for the Blitzfire Monitor. Can be retrofitted into existing Blitzfires or purchased as a complete unit. All the standard features of the Blitzfire plus automatic oscillation back and forth. The mechanism is driven by a turbine and makes the nozzle sweep back and forth in a smooth, rhythmic motion for unmanned controlled attack. The Blitzfire OM is perfect for initial attacks, protecting exposures and Haz-Mat situations.

- **Automatic Oscillation At 20°, 30° Or 40° Degree Sweeps.**
- **Easy To Disengage And Operate Manually.**
- **Vertical Travel From 10° To 50° Above Horizontal.**
- **May Be Manually Overridden.**
- **Flow Range Up To 500 GPM.**
- **SAFE-TAK II Safety Shut Off.**
- **Pivoting Inlet Coupling.**
- **6 Detent "Nozzleman Flow Control".**

Folded Size 28.5" x 11" W x 10" H
2-1/2" NH Threads Standard
